Features

OfficeServ IP Softphone is a PC-based application for mobile professionals and telecommuters that provides full handset and telephony functionality at the click of a button without the need for a physical phone. Softphone users can log in from home, interstate or overseas across a broadband connection and simulate their office environment with full telephony functionality.

Key Features

- Utilise entire OfficeServ handset telephony functionality with access to direct indial calls, internal calls, voicemail, personal and system directories
- Use point and click operation
- Operate with a headset/USB phone
- Application window has 3 views to allow users to minimise desktop clutter.
- Access the video^ facility included as standard (NB webcam required)

Work smarter and increase productivity

- Access enterprise communications remotely
- Display up to 99 buttons with an add on module feature, sufficient for programming busy lamp fields, feature access or speed dial keys
- Create a better connected, more integrated mobile workforce
- Avoid the expensive costs associated with hotel communications and mobile charges, especially when travelling overseas

Screenshots
